How to Draw People is a great resource to teach children to understand the basics of drawing the human form.

Since drawing is often the first effective way for children to communicate with the outside world, having this resource available will help your child express needs, wants, and emotions more efficiently.

If your child is extremely motivated to learn how to draw, Maribel Cruz's "How to Draw People" will not only teach your child how to become a better artists, s/he will also begin developing important cognitive skills to start exploring the "self" by effectively expressing a view of him or herself. But there is more, as your child can also start to express the direct environment, including family, friends, and other loved-ones. Children who can relate to others develop what is called Adaptive Skills, which let them adjust and relate to new situations much easier. This resource will help your child develop that adaptive behavior as drawing for instance a policeman wearing a uniform will help your child identify policemen without any doubt.

As your child progresses, encouraged by the ease of step-by-step drawing, they will build confidence, not only in drawing, but in all aspects of their lives. Knowing that they have the ability to recreate what they see is an important stepping-stone.
