Here's what other readers are saying:

"When I bought this book I was afraid it would be the same old rehashed money saving tips and if this were the case I was going to return it. Thankfully, the book isn't full of the same stuff you can find on any money saving website. Sure, there were some common sense ones, but there were also a lot of tips regarding things you wouldn't normally think of or find on sites like Wise Bread or Simple Dollar. As the description said, all I did was pay a penny for each tip and I'm sure I'll save a lot more than what I spent on this book. Highly recommended."

"I may have purchased this book because of the title and a funny cover (we're all guilty of that sometimes), but what I found within far exceeded my expectations. The tips are succinct and easy to follow. Instead of listing a bunch of chore-like tasks I'll never get around to, the items contained in this book are easy, simple changes, which means I'll be far more likely to implement them. And that's all that matters in the end."
