The Emergence of Private Authority in Global Governance (Cambridge Studies in International Relations)

The Emergence of Private Authority in Global Governance (Cambridge Studies in International Relations)

The emergence of private authority is now a feature of the post-Cold War world. The contributors to this volume examine the implications of the erosion of the state's power in global governance. They analyze financial institutions, multinational corporations, religious terrorists and organized crime operations. Relating directly to debates concerning globalization and the role of international law, this study is of interest to scholars and students of international relations, politics, sociology and law.
