Allergy and Immunotoxicology in Occupational Health (Current Topics in Environmental Health and Preventive Medicine)

Allergy and Immunotoxicology in Occupational Health (Current Topics in Environmental Health and Preventive Medicine)

This book offers a collection of the latest clinical and research findings related to allergies, one of the most frequently treated conditions in occupational medicine. The chapters not only cover asthma but also elaborate on contact dermatitis, rhinitis etc., providing readers with a comprehensive overview of the substances disrupting autoimmunity and their effects on the human body. Allergy and Immunotoxicology in Occupational Health will be a valuable resource for professionals and researchers in the occupational health sector, who will discover novel insights into immune effects, providing a foundation for future considerations on the health impairments caused by environmental and occupational exposure to these substances.
