Marx and Engels on the Trade Unions

Kenneth Lapidés

Marx and Engels on the Trade Unions Kenneth Lapidés

Virtually everything Marx and Engels ever wrote on labor strikes and trade unions has been collected in this volume for the first time. It includes vivid, often eyewitness accounts of many of the greatest strikes and labor struggles of the last century. This original and valuable collection challenges the prevailing assumption that Marx and Engels cared little for trade unions and their role in the transition to socialism or that they had little practical involvement with unions. Lapidés illuminates the immense part personally played by Marx and Engels in helping to establish the modern labor movement. Covering the period 1844-1894, the book features graphic and moving portrayals of contemporary labor struggles, candid personal views of various labor leaders, biting polemics against socialist rivals, and eloquent passages. Lapidés provides an introduction that places the excerpts in historical and theoretical context.
