Recent news about one of our authors!

Jerome Lavelle, co-author *Engineering Economic Analysis*, 11E, won the **2011 Wellington Award**, which is given at the Institute of Industrial Engineers (IIE) Annual Conference & Expo and recognizes outstanding contributions in the field of engineering economy. His co-authors, Donald Newnan and Ted Eschenbach, have both taken home the prize in the past.

This eleventh edition of the market-leading *Engineering Economic Analysis* offers comprehensive coverage of financial and economic decision-making for engineers, with an emphasis on problem solving, life-cycle costs, and the time value of money. The authors' concise, accessible writing, practical emphasis, and contemporary examples linked to students' everyday lives make this text the most popular among students. And with the **most extensive support package**, this is the **easiest book to teach from**.

New to the Eleventh Edition:

- * For instructors considering putting all or part of their course online, **we now offer all of the electronic material for upload to Learning Management Systems**
- * More than 340 new and revised end-of-chapter problems
- * Greatly enhanced coverage of Microsoft Excel® software, including 36 video-based Excel tutorials aimed at allowing instructors to spend more time teaching the concepts and less time teaching the software
- * **Up-to-date chapter-opening vignettes** that reflect current global events
- * **New appendix on using financial and the HP 33s & 35s calculators** for Time Value of Money calculations--a great time saver in class and on the FE Exam
- * Updated to include **the latest tax legislation and rates**
- * Enhanced coverage of ethics

INSTRUCTOR'S SUPPORT PACKAGE

- * **Learning Management System support:** Most of the electronic ancillaries are available as pre-formatted cartridges for upload to your Learning Management System, including Blackboard or Moodle.
- * **Instructor's Manual** includes full solutions to all text problems in print format
- * **Instructor's CD** includes the case solutions to the *Cases in Engineering Economy* text, as well as a computerized test bank
- * **Two PowerPoint-based lecture resources:** Fully-customizable PowerPoint-based lecture outlines, ready for immediate use or modification, and slides of every figure in the text
- * **Automated test bank** for every chapter

FOR STUDENTS, PACKAGED WITH EVERY COPY OF THE TEXT

*A free casebook: The in-text CD includes *Cases in Engineering Economy*, a collection of 54 case studies designed to help students apply the theories and concepts of engineering economy to real-world situations in the engineering profession

* **Excel support:** 36 video-based Microsoft Excel software tutorials, each explaining how to use Excel to work specific financial calculations, and a collection of interactive spreadsheet models. Each is designed to promote independent, self-paced instruction in this vital tool. Makes a wonderful companion to both the text and the Casebook.

* **The Companion Website** (www.oup.com/us/newnan) features additional materials, including 100 additional sample FE exam problems and online quiz questions. **On-line quiz questions** for self study are also included.
