The Digital Photography Book, Part 2 Scott Kelby

Scott Kelby, author of the groundbreaking bestseller “The Digital Photography Book, Vol. 1” is back with an entirely new book that picks up right where Vol. 1 left off. It’s more of that “Ah ha—so that’s how they do it,” straight-to-the-point, skip the techno jargon; packed with stuff you can really use today, that made Vol. 1 the world’s bestselling book on digital photography.

In Volume 2, Scott adds entirely new chapters packed with Plain English tips on using flash, shooting close up photography, travel photography, shooting people, and even how to build a studio from scratch, where he demystifies the process so anyone can start taking pro-quality portraits today! Plus, he's got full chapters on his most requested topics, including loads of tips for landscape photographers, wedding photographers, and there's an entire chapter devoted to sharing some of the pro's secrets for making your photos look more professional, no matter what you're shooting.

This book truly has a brilliant premise, and here’s how Scott describes it: “If you and I were out on a shoot, and you asked me, ‘When I use my flash, the background behind the person I’m shooting turns black. How do I fix that?’ I wouldn’t give you a lecture on flash ratios, or start a discussion on flash synchronization and rear curtain sync. I’d just say “Lower your shutter speed to 1/60 of a second. That should do it” Well, that’s what this book is all about: you and I out shooting where I answer questions, give you advice, and share the secrets I’ve learned just like I would with a friend—without all the technical explanations and techie photo speak.”

Each page covers a single concept on how to make your photography better. Every time you turn the page, you’ll learn another pro setting, tool, or trick to transform your work from snapshots into gallery prints. If you’re tired of taking shots that look “okay,” and if you’re tired of looking in photography magazines and thinking, “Why don’t my shots look like that?” then this is the book for you.

This isn’t a book of theory—full of confusing jargon and detailed concepts. This is a book on which button to push, which setting to use, and when to use it. With nearly another 200 of the most closely guarded photographic “tricks of the trade,” this book gets you shooting dramatically better-looking, sharper, more colorful, more professional-looking photos every time.

From reader reviews:

Mary Andrade:

Spent a free time for you to be fun activity to perform! A lot of people spent their spare time with their family, or their friends. Usually they undertaking activity like watching television, planning to beach, or picnic from the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could be reading a book is usually option to fill your totally free time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to attempt look for book, may be the reserve untitled The Digital Photography Book, Part 2 can be great book to read. May be it may be best activity to you.

Olivia Cook:

People live in this new morning of lifestyle always try and and must have the spare time or they will get lot of stress from both way of life and work. So , when we ask do people have time, we will say absolutely sure. People is human not really a robot. Then we request again, what kind of activity are there when the spare time coming to you actually of course your answer will probably unlimited right. Then do you try this one, reading textbooks. It can be your alternative with spending your spare time, the particular book you have read is usually The Digital Photography Book, Part 2.

Lorene Lord:

This The Digital Photography Book, Part 2 is great guide for you because the content that is full of information for you who also always deal with world and get to make decision every minute. That book reveal it facts accurately using great coordinate word or we can claim no rambling sentences in it. So if you are read the item hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but hard core information with attractive delivering sentences. Having The Digital Photography Book, Part 2 in your hand like having the world in your arm, details in it is not ridiculous just one. We can say that no publication that offer you world with ten or fifteen small right but this book already do that. So , it is good reading book. Hello Mr. and Mrs. active do you still doubt that?

Wanda Pence:

Many people spending their moment by playing outside having friends, fun activity together with family or just watching TV the whole day. You can have new activity to invest your whole day by looking at a book. Ugh, ya think reading a book can definitely hard because you have to use the book everywhere? It fine you can have the e-book, having everywhere you want in your Cell phone. Like The Digital Photography Book, Part 2 which is obtaining the e-book version. So , try out this book? Let's notice.
