The Great Ships: British Battleships in World War II (Stackpole Military History Series)

Peter C. Smith

Covers the famous chase after the *Bismarck*, the sinking of the *Scharnhorst*, the coastal bombardments on D-Day, and other actions. Although naval development before World War II focused on aircraft carriers, the British nevertheless had seventy battleships--larger and more powerful than ever before--under construction at the outbreak of the war. Indeed, one of the Allies' first successes came in December 1939 when British ships hunted down and successfully engaged the German *Graf Spee* off the coast of South America. The war would hasten the battleship's decline, but not before producing dramatic moments at sea.
