This is a casebook for students learning Internet Law, but other people interested in Internet Law may find it interesting. The book covers jurisdiction, contracts, trespass to chattels, intellectual property (copyright, trademarks and domain names), pornography, defamation and other information torts (including limits on web host liability), privacy, spam and the legal issues applicable to blogs and social media. Please note that some of the printed images may be a little blurry. While I've done my best to make the hard copy version of the book useful to you, the hard copy is missing some features, such as color images and clickable links. Therefore, if you would like a PDF version of the book to complement your hard copy version, just email a copy of your purchase receipt for the hard copy to me (egoldman@gmail.com) and I will email you a PDF at no extra cost.
