Piers Anthony

1 On a Pale Horse (1983), 2 Bearing an Hourglass (1984), 3 With a Tangled Skein (1985), 4 Wielding a Red Sword (1986), 5 Being a Green Mother (1987), 6 For Love of Evil (1988), & 7 And Eternity (1990).

Incarnations uses its premise to ponder questions regarding the nature of life. As each character goes from a mortal life to the "office" of an Incarnation, they are forced to contemplate their actions on a daily basis. Each Incarnation may use their office, within limits, as they see fit. This system humanizes what would otherwise be impersonal forces, leading to both extensive considerations of the effects of the incarnation's work and the impact it has on not only humanity but also the other offices of immortality as well. Another humorous side of Incarnations is the portrayed magic/technology duality. Most series emphasize one or the other means of understanding and manipulating the world, but in Incarnations each method is equal in usefulness and respect. This leads to a number of amusing parallels, such as competition between automobile and magic-carpet manufacturers. By the future time period of Norton, magic is referred to as the Fifth Fundamental Force, with its own primary particle, the Magicon (similar to a graviton). A few other series have used the technology/magic combined motif, notably Apprentice Adept, another series by Piers Anthony, and Four Lords of the Diamond by Jack Chalker, although that book had an actual technological basis for the explanation of its magic, in contrast to Piers Anthony's work. Anthony uses the number five extensively, often with things that exist in fives in our world. The five Incarnations are associated with the five elements (Death with Earth, Fate with Water, War with Fire, Nature with Air, and Time with Void), and often other items with fives (the previously mentioned Book of Five Rings). There are five fundamental interactions, magic being the fifth.
