Inside Her: Dirty Secrets From A Female On How To Attract And Seduce Any Woman (Dirty Talk, Sex Positions, Female Orgasms And Female Psychology) Sara Moore

There are going to be many allusions in this book about the fact that men like us tend to be less perceptive, vulnerable or emotionally open. Of course, women are not as expressive sexually, are not as open emotionally nor desiring. This can be annoying to a guy and there are nearly complete overlaps between the traits that each partner desires from each other. This book is going to be about what exactly makes her tick and how to behave in such a way that both you and your woman get what you want. After all, in this day and age, isn't there enough information for everyone to function in a much smoother fashion? If the women you date tend to keep you baffled, this book is the key.

Does it sometimes seem like women say one thing but contradict their own words with seemingly opposite actions? To me it does. As a matter of fact with other men that I talk to, it is the number one complaint when it comes to their partners. Once you understand this circumstance, you gain the upper hand in the relationship game.

For hundreds of years, men have tried and tried to unravel the mind of women, and to this day we don't really have a lot to show for all the studies and researching. Most men have deciphered a few things: that jewelry is something every woman loves, and that sometimes when she says 'nothing' is wrong, this is the opposite of what she really and truly feels.

But what about the rest of her mind?

With no significant results produced after so much research, you might wonder why men will still make any attempt to get inside the head of a woman.

The reason we do is simple. Duh. He who is able to understand what goes on inside the mind of a woman will gain freedom from the harm that arises from interactions with them. This includes self-exploitation, miscommunication, fear of rejection and intimidation.
