The world is divided unevenly into two types of people; the majority poor and miserable; and the very minority successful and happy. Many have been taught that the disparity is caused by disobedience to religious tenets, or have heard conspiracy theorist wail that government and a select few businessmen are the cause of their woes. Lies! With scientific proof resulting from studies running through over a century, this e-book would show you that your growth in life, success, and happiness squarely lie in your hands.

You would learn how to transform and position your mindset in a way that all the joys and happiness of this world become automatically accessible to you. You would also learn that sickness, worry, and fear are little devils lying at the corner waiting to snatch you into a state of depression; while on the other hand, a life full of gratitude, enthusiasm, love, etc., would set you on the path towards great success and perpetual peace of mind.

There is no magic in the journey to success. All successful people know and apply same laws and natural occurrences that generally guide life on earth; these laws you would learn and come to see, that climbing the ladder of success is a science and can be learnt by anybody, living anywhere – if only they try.
