He trained her. He seduced her. He betrayed her.

And now he wants her back.

When secret agent Kizzie Baldwin walked away from her criminal Dom to go back to her handler, she had no idea she'd be running headfirst into her past. Her former partner Lennox Tate is back in her life and he's hellbent on staying there.

With her attraction to Lennox reignited, and her connection to Xander stretched thin, Kizzie must work side-by-side with the man who abandoned her to ferret out a mole operating deep inside the CIA. But Kizzie isn't the only one battling her past. Lennox's mistakes have caught up with him; mistakes that put Kizzie in the line of fire.

Will Kizzie hold tight to an uncertain future with Xander?

Or will a familiar past with Lennox put her life as a submissive on the rocks?

Interview with the Author

Q: What makes the Kizzie Baldwin series special?

A: A lot of things, but mainly this series reflects the types of stuff I like to read. When I'm perusing the top picks lists, I tend to reach for thrillers and erotic romances but find that one usually lacks what I want from the other — the thriller has no sex or real love story to speak of, and the erotica and romance have no fast-paced, action and adventure-style plot.

The Kizzie Baldwin series solves that problem, blending the genres and fully fleshing out the different plot lines. There's a kickass, snarky lead female in Kizzie —seriously, if James Bond were a woman, he'd be Kizzie Baldwin— and her sexy, rich, alpha male love interest Xander. The domination and submission aspect of the novels ramps things up since D/s is a relationship that requires a great deal of trust, but with Kizzie being a secret agent, and Xander being a criminal, trust isn't something either has a ton of (any of?).

All in all, the Kizzie Baldwin series is designed to keep you up long after your bedtime, flipping pages or swiping over your screen because you have to know what happens next!

Q: Why the CIA?

A: There's a lot of imaginative latitude when your main character works for a covert group inside a government agency. Plus, it's a world that's already mired in confusion and conspiracy and dark, shadowy deeds, which plays well for all the characters and events that take place.

Q: Do I have to read the books in order?

A: YES. I repeat, YES they have to be read in order. When Kizzie and Xander first came to me, they were supposed to be a ten thousand-word short story for an anthology. But these two just wouldn't go away. So, to

get their story told, I had to leave that first one (Shaken & Stirred) as a 'To Be Continued', setting the tone for the rest of the books. That said, the books don't just snip off at a random location, and each story does solve its primary objective.

Here's the order to make sure you don't miss a single thing:

1. Shaken & Stirred
2. Wallbanger
3. Sake Bomb
4. On The Rocks
5. Dirty (Coming Soon)

Q: So, why should readers give these books a go?

A: Because the books blend action, thrills, heat, and heart with a ton of snark. There are lots of laughs and enough twists and turns to give you whiplash. If that's your thing, you'll love this series and the characters populating the exotic locales that make up this world.

Q: Will there be more Kizzie and Xander?

A: Does the sun set in the west? I'm often asked when the series will end, and I always answer the same way: I have no idea. But that's the best part. I don't know where this series will go, so we're all on this thrill ride together!

Thanks for reading!
