## CD-ROM #1 for Herman's Residential Construction Academy: Electrical Principles Stephen L. Herman

A companion to the RCA Electrical Principles text, the RCA Electrical Principles Video Series introduces the viewer to electrical theory and its applications through an overview of important concepts, equations, and practical examples. The series contains a set of eight, 20-minute videos, covering direct and alternating current, as well as an introduction to Single Phase Motors. Full-color graphics and animations illustrate important concepts, creating a visually appealing presentation that is easy to follow and understand. Create a direct link between your education/training program and the construction industry! For the first time, textbooks are available for many of the residential crafts - including carpentry, electrical, HVAC, plumbing and facilities maintenance - that are based on national standards developed by the nation's leading builders and remodelers. The result of a strategic partnership between the Home Builders Institute (HBI) of the National Association of Home Builders and Delmar Learning, this new series from the Residential Construction Academy is the perfect way to introduce people of all ages to the building trades while guiding them to development of essential workplace skills. Ideal for use in vocational programs, workforce development programs, professional associations, and trade unions, all materials are based on national standards set by the construction industry. As a result, they are sure to develop a workforce that is skilled, knowledgeable, and able to meet the needs of the contractors who are hiring trades people today and well into the future. Program review, and certification, plus a national registry of students who have successfully completed units of instruction, are also available to participants in this exciting, new program.

#### **Diana Erickson:**

As a student exactly feel bored to reading. If their teacher expected them to go to the library or make summary for some e-book, they are complained. Just very little students that has reading's heart or real their hobby. They just do what the trainer want, like asked to the library. They go to there but nothing reading critically. Any students feel that examining is not important, boring in addition to can't see colorful images on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this CD-ROM #1 for Herman's Residential Construction Academy: Electrical Principles can make you feel more interested to read.
