As a university student, I exactly feel bored with reading. If my teacher inquired me to go to the library as well as to make a summary for some book, I am complained. Just minor students that have reading's heart and soul or make it their pastime. They just do what the professor wants, like being asked to go to the library. They go to the library now but are not really reading. Any student feels that reading is not important, boring, and also can't see colorful pictures on there. Yeah, it is becoming complicated. Reading is very important for me personally. As we know that in this era, there are many ways to get whatever we really wish for. Likewise, words say, there are many ways to reach China's country.
