We propose in the following pages to examine the Book of the Prophet Daniel by the same general methods which have been adopted in other volumes of the Expositor's Bible. It may well happen that the conclusions adopted as regards its origin and its place in the Sacred Volume will not command the assent of all our readers. On the other hand, we may feel a reasonable confidence that, even if some are unable to accept the views at which we have arrived, and which we have here endeavoured to present with fairness, they will still read them with interest, as opinions which have been calmly and conscientiously formed, and to which the writer has been led by strong conviction. All Christians will acknowledge the sacred and imperious duty of sacrificing every other consideration to the unbiassed acceptance of that which we regard as truth. Further than this our readers will find much to elucidate the Book of Daniel chapter by chapter, apart from any questions which affect its authorship or age.
